

TURFACE®

TURFACE MVP®

TURFACE MVP® improves the native soil root zone by adding permanent pore space to prevent compaction. TURFACE holds moisture, nutrients and increases drainage as a result of balanced air & water pore space.

When to use:

New construction, renovation, and topdressing after aerification

Topdressing rates after aerification:

250 to 500 pounds per 1000 sq. ft.

Renovation or construction rates:

15% to 30% by volume. (1 to 2 tons per 1000 sq. ft. 4 inches deep)

TURFACE Pro League®

TURFACE Pro League® is a patented soil conditioner providing the same benefits to the soil as TURFACE MVP®, but manufactured with smaller, more uniform particles that flow easily into aerification holes. Used as a topdressing, Pro League saves games and turf by preventing slick and muddy conditions that destroy turf and make fields unsafe and unplayable.

When to use:

Ideal for Topdressing and Drill and Fill machines

Topdressing rates to prevent slick:

250 to 500 pounds per 1000 sq. ft. muddy conditions

Topdressing rates after aerification:

250 to 500 pounds per 1000 sq. ft.

Renovation or construction rates:

15% to 30% by volume. (1 to 2 tons per 1000 sq. ft. 4 inches deep)
