

***HYDROSEEDING
TACKIFIER and MULCH BINDER***

Manufactured to meet Pennington's standard of excellence.

RATES OF APPLICATION

- ❖ TACKING Paper and Light Straw --- *USE ONE BAG PER ¼ ACRE*
- ❖ BINDING Heavy (BARK) Mulch--- *USE TWO BAGS PER ¼ ACRE*
- ❖ On SLOPES in excess of 30°--- *USE TWO BAGS PER ¼ ACRE*

MIXING

- 1) Add TAC-L when tank is half full and agitation started.
- 2) Add gradually along with other slurry ingredients.
- 3) When fully loaded, agitate at one half to full speed for five minutes.

A spillage of PENN-TAC presents a slipping hazard. Sweep up or vacuum spilled material when dry, or use absorbent material if wet. Flush area with water following cleanup. NON-HAZARDOUS.

Pennington Seed, Inc.

1280 Atlanta Hwy., P.O. Box 290, Madison, GA 30650
