

RUGGED WEAR™ SHADE MIX

Rugged Wear™ Shade Mix is a mixture of elite quality turf grasses best suited for excellent turf in shady areas. Components include 20% Limousine Kentucky Bluegrass, 20% Monte Carlo Kentucky Bluegrass, 20% Blue Ridge Kentucky Bluegrass, 20% Cadet Kentucky Bluegrass and 20% Jet Perennial Ryegrass.

Characteristics:

- **Rugged Wear™ Shade Mix** provides turf in shaded areas where other species cannot grow.
- Contains top rated varieties in four different species.
- Drought and Disease tolerant
- Includes Chateau Kentucky Bluegrass for transition into sunnier areas

Recommended Uses:

Golf Courses (Fairways, Tees), Athletic Fields, Playgrounds, Home Lawns, and Parks

Climatic Zones:

3, 4, 5, 6, 7, 8 (may not be adaptable to all areas within each climatic zone)

Establishment & Maintenance:

Germination begins in approximately 21 days. **Rugged Wear™ Shade Mix** responds best to no more than 1/2 lb. of Nitrogen per 1000 sq ft per growing month. A repeat application only as grass shows need by fading color. Apply 5 lbs. Nitrogen per 1000 sq ft maximum per year. A mowing height of 1 – 2 inches (25.4 - 50.8 mm) is recommended for tees, and 1 1/2 - 2 1/2 inches (38.1 – 63.6 mm) for fairways. Higher cutting heights are preferred under shaded conditions.

Seeding Rates:

- New Plantings 150-200 lbs/acre
(168 – 224 kg/hectare)
- Overseeding 75 –150 lbs/acre
(84 – 168 kg/hectare)
